As a rule, loans of furniture should not be given for private purposes. But it is occasionally necessary to do so in case of needy and deserving applicants. The furniture indented and supplied for public purposes in such cases when his application cannot be refused and when it is found absolutely necessary to meet his tents, the scale of fees mentioned in para 4 of the Resolution may be recovered, viz. one Rupee per day for a double pole tent or shamiana & 8 as per day per single pole tent, his cost of transit to and from his post should also be borne by the applicant.

Applications are being received both from Government Officers and private gentlemen (representing in some cases public bodies &c) for loan of tents for use during marriages, anniversaries and such like public and private functions These requisitions are most often complied with, when the tents can be spared. On almost all such occasions the Government lascars have to do the pitching and the unpitching. Much doubt , difficulty and delicacy is experienced in deciding whether these requisitions are to be complied with or not. Further the tents are also put to a lot of wear and tear by such constant use.

2. I would respectfully beg to submit that it would be better to discourage such applications as far as possible by prescribing a daily rent for tents loaned out for such purposes. Under article 567 of the Service Regulations, even Government Officers, when on tour, are required to bear half the cost of transit or to pay a rent of one Rupee for a Double Pole or larger tent and half a Rupee for a Hill tent or other smaller tent per day, when they use them for private purposes.

Government will also be reimbursed by this procedure for the wear and tear caused to the tents by such uses.

4. We might likewise charge a daily rent of one Rupee for a Double Pole or larger tent, and half Rupee a day for a Single Pole or other tent, the party bearing the expenses of transit to and fro and the cost of pitching &c.. The supply of these tents to such persons will, of course, depend upon the stock of tents in the Stores, the official requisitions on hand or expected to be received and which have to be promptly complied with, and will be at the absolute discretion of the Secretary.

With a view to discourage as far as possible applications for the loan of Government tents for use during private and public functions, it is proposed to frame a set of rules for regulating their loan and prescribing a scale of fees to be charged when the tents are made available.

I have the honour to bring to the notice of Government that Government tents, shamianas etc. are at present freely used for private purposes at the residence of officers of Government on occasions such as marriage, entertainments etc. and to suggest that either the practice be stopped or a scale of hire per diem be fixed for private use of Government tents.

2. Government tents are also sometimes pitched in or near the compound of officers' residences as a more or less permanent arrangement for holding home offices etc As any official work which an officer has to do at home may be fairly expected to be done in his residential building, this practice may also be put a stop to. If the practice were allowed to continue every officer who has occasion to do official work at home may claim the permanent use of some Government tents at his residence which would lead to an embarrassing situation. Moreover, it would be practically impossible to restrict the use of such tents for official purposes only.
